**Daily Intelligencer.**  
Adams in the Arctic.  
THE DUNKER WHALING CAPTAIN'S ACCOUNT  
OF HIS RECENT VOYAGE.

LONDON, No. 2.—The *Pall Mall Gazette* says: "The first meeting at the Geographical Society promises to be of unusual interest. It will be devoted entirely to Arctic matters. It is expected that some one will read a paper from Captain Adams, the Dundee whaler."

**Mothers! Mothers!! Mothers!!!**  
Are you disturbed at night and broken  
out rest by a sick child suffering and crying  
with the distressing accompaniment of  
sneezing, coughing, croup, colds, whooping  
cough, sore throat, and all the  
other ailments of a sick child?  
Give your child at once a few drops of  
**WILSON'S SOOTHING SYRUP.** It will  
soothe the poor little sufferer immediately—  
depend upon it, there is no truer statement about it.  
It is the greatest mother on earth who has ever  
lived, it who will not tell you at once that it  
will regulate the bowels, and give rest to the  
mother, and comfort to the child, and  
satisfy the craving like magic. It is pleasant  
in all cases, and pleasant to the taste, and  
it is the prescription of one of the oldest and best  
medical physicians in and around the United  
States. **Bottle everywhere at 26 cents a bottle.**

3641

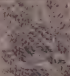

**A General Statement.**

[illegible]

There is as now at James Clark & Co. for sale a small bottle of Dr. King's New Discovery for Consumption, Coughs and Colds. All persons afflicted with Asthma, Bronchitis, Hoarseness, Scurvy Coughs, or any affections of the throat and Lungs, on getting a Trial Bottle of this great Remedy for it, by calling at above drug store.

**Falling Leaves!**

"There is something inexpressibly touching in the falling leaves," sighed an extempered man, as he gazed at the autumn foliage. "It is, indeed, it is," he continued, "a sad thing when you slip on one of these." "It is," indeed, it is," said the other, "but it is not so when you slip on the anemymorphic pavement." "There is no reality touching the pavement,"—a language uttered from the heart, you see, from the depths of the soul, is the mazy solicited that comes from those who come seeking solace from long distress, asthma, and consumption, and who have used N. H. K. and Dr. Williams' Pink Pills, and have been restored to their former health and activity.

[illegible]

**ZOPESA.**  
(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes ZOPESA an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Head-ache, Sick Headache, Distress after Eating Wind on the Stomach, Heartburn, Pains in the Side and Back, Watery Urine, and all the

the dark, pathless sea of the Far East. The expedition. Successive *en route* voyages have not cleared up the mystery, which once surrounded the crews of the *Endeavour* and *Tenacity*. The *Endeavour* was wrecked on the coast of the island where they were abandoned, the fate of the commander and many of the crew, and there are points long ago settled on this world. But there was one man in which the mystery still remained. He was the Frenchman, Crozier. Captain Aulic here remarks: "During the course of my voyage I discovered a very intelligent Frenchman. He belonged to the *Leif Erik* settlement, on the coast of the island where the *Endeavour* was wrecked. He told me when he was a young man that he had travelled with his father who met the commander of the *Endeavour* on the day of his arrival in the island. He had seen him, and he had seen the wreck. I have been a collector and questioned him very patiently upon the important subject, but he never wavered in the least and I could not get to the bottom of the matter. There were very much who were severely disappointed."

sch. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 75 cent Sample, or a large bottle for 76 cents, and tell your neighbor about it.

Mr. Wilkins, like all who return from the north, looks much healthier, rosier and healthier than when he left. The track which he surveyed, Mr. W. says, is very marvellous in place; but it contains some excellent agricultural land, and some good ridges extend across it.

Mr. Wilkins was unfortunate enough to lose two of the three horses which he took out with him. Shortly after he arrived at the track country which had been sent him for him to survey, he was struck by one of his horses, and he was killed.

ter and develop such enterprise. We sincerely trust that our information, with regard to this matter may prove more than correct, and that Belleville may in this way soon reap a return for the sacrifices which it has undoubtedly made in the construction of the Grand Junction and North Hastings Railways.

EDITORIAL PROCEEDINGS.

The Critic does not like a surplus, because it is a sign that trade is buoyant under the N. P. Co. of West Mid-

dlesex, who is one of the financial critics of the Critic, takes an opposite view, however. In a speech which he recently made before his constituents, Mr. Ross said: "The Reform party made a great mistake by not having a surplus, but they will do better next time." Mr. Ross is in the right as to the surplus, but wrong as to the policy of his party. Mr. Blake has declared against a surplus, and thereby his position as leader of the Opposition is sacrificed for some seven years, at any rate, provided he desires to remain at the head of his party.

The St. Catharines News, formerly a free-trader of strong Yankee proclivities, has been converted to the truth that free trade is dead in Canada. So it advises the Globe as follows: "Everything will be swept away with a commercial revolution, with the single purpose of adding to our industries. And the sooner the Globe learns this, the better it will be for Canada and the Reform party." This will be many more converts to the cause of the Reform party, but the cause of the Reform party is not the cause of the Reform party, but the cause of the Reform party.

The mails from New York seem to travel very slowly and with no degree of certainty. One letter descriptive of the preliminary of the late yacht races was posted on Saturday and had not yet reached here, while another posted early on Friday morning arrived yesterday morning. Now considering that passengers and express matter should be sent by the mail, it is not surprising that the mails from New York on Friday at 6 p. m. reached Belleville at 6 p. m. on Saturday. It does seem as if there were screw loose somewhere in the mail arrangement.

The Irish agitators are receiving but scant sympathy from the people of the United States, or our neighbors are doing all that is in their power to redress the wrongs of the Irish people. Father Sheehy and Mr. Healy, M. P., addressed a meeting in New York on the night of the 10th, and the leading papers did not consider the subject worthy of more than a half column notice. This decline of sympathy means decline of funds, and with lack of money the agitation will soon wear itself out.

THE GOVERNOR-GENERAL.

His Excellency's Safe Arrival at Liverpool.

MET BY THE PRINCESS LOUISE.

(By Cable to the Globe.)

LONDON OFFICE OF THE GLOBE, 151 Fleet-street, E. C.

The Allan mail steamer *Sardinian*, with the Hon. the Marquis de Lorne on board, after touching at Malta, arrived at Liverpool to-day, and was met on board by H. R. H. the Princess Louise. His Excellency is reported perfectly well. The passage was an arduous one as to length, and nothing of special moment occurred. The Princess and Marquis were cheered repeatedly and vigorously by the thousands of people who had assembled at the Rinkhead landingplace. In addition to the popular reception, the municipal authorities were present officially to welcome their arrival at Chester. Her Royal Highness and His Excellency proceeded to the house of the Duke of Westminster, where guests the Princess has been for the last three days.

An Important Decision.

OTTAWA, Nov. 14.—The last case before the Supreme Court, in which judgment was given this afternoon, was that of *Corby et al. v. Williams*. The request was a commission return of writ of habeas corpus, and a writ of *certiorari* to the Court of Queen's Bench, Ontario, to set aside the judgment of the lower court. Messrs. Corby asked the writ to be granted, and refused to pay it. Williams then brought the writ, which was denied against him, but the Ontario Court of Appeal reversed the judgment of the lower court. Messrs. Corby then appealed to the Supreme Court, and the case was argued last term. The appeal was allowed with costs, after which the court adjourned till to-morrow.

WIRE MURDER.—A despatch from St. John, N. B., on the 14th, says: "The coroner's jury of St. John returned a verdict that Mrs. Sheel, of Spruce Lake, died from injuries received at the hands of her husband. The evidence disclosed shocking brutality."

CITY COUNCIL.

The City Council met last evening. Mr. W. H. Walker, Mayor, in the chair.

PRESENT.—Messrs. Ald. Ostrom, Smith, St. Charles, Dickson, Lingham, Campbell, Diamond, Holden, Van Dusen, Dunsen, Foster, St. Lawrence, Clarke, Pettie, Hend, Ross, Dunsen.

The minutes of the last meeting were read approved.

COMMUNICATIONS.

The following were presented and read:—

From T. O. Hall, asking that a suitable site be granted to the Ontario N. P. Co. for the establishment of a siding.

From E. J. Flanagan, representing another Iron Company, to the same effect.

From the Electric Fire Alarm Co. of Toronto, with reference to the introduction of their system in Belleville.

From Hugh Walker, with reference to his amendment.

A number of accounts were presented.

A petition was also read from certain parties, stating that a company was being organized to work the N. & C. Harbour Railway, and that the petitioners were desirous of getting the right of way granted to them for that purpose.

REPORTS.

The reports of the various standing committees were read.

NOTICES.

Ald. Dickson gave notice of a By-law regarding the width of the streets.

Ald. Dickson gave notice of a motion:—

That the City Clerk be and is hereby instructed to apply for and procure a copy of the Bill of the Ontario N. P. Co. for the establishment of a siding at the Grand Junction Railway with certain other railways and to report the same to the Council, with such remarks as he may deem advisable in the interest of the City.

The rules were suspended in order to enable the foregoing motion to come before the Council.

It was considered and finally carried.

Ald. Pettie moved for the appointment of a Committee to investigate into the reason why the Assistant Clerk had not been engaged to do a certain piece of accountants' work for which another party had been engaged.

Ald. Pettie claimed that the work might have been done by Mr. Gillespie, and the City Clerk then nearly \$70.

Ald. Dickson said the work in question had been sanctioned by the late Chairman of Finance.

The motion was lost, Ald. Pettie alone voting for it.

Ald. Dickson moved for a detailed statement, to be supplied by the Treasurer, of all money paid to T. B. Bentley for work performed for the City by him during the past two years.

Ald. Henderson opposed the motion. He claimed that it was not the duty of the Council to investigate matters of this kind, but that of the Finance Committee.

Ald. Dickson explained that it was known that money had been paid out which had not been before the Finance Committee.

The motion was carried.

Ald. Pettie moved for the appointment of a Committee to investigate into certain irregularities in the delivery of coal for the City.

neer from Toronto, Mr. R. W. Ferguson,

Superintendent and Mr. C. Blackwell, Chief

Engineer of the Midland and G. J. R. Railways.

The Chairman explained the object for

which the Committee had been appointed.

The main question to be considered was

whether an agreement could be made by which

the G. J. R. track could be removed from

Pine Avenue.

Mr. Cox said that now was the most opportu-

nity to consider this question, as the

Company contemplated erecting new wharves

and elevators, which would necessitate the

removal of the track. He stated that the

river would necessitate the construction of

another bridge between the wharves and the

Company's property, which would be a great

inconvenience to the public. He stated that

the Company would be willing to consider

the removal of the track if the City would

agree to take the wharves and elevators.

The Mayor stated that the City would be

MORNING DESPATCHES  
EUROPEAN.

THE AUSTRIAN EXPLOSION.

DUBLIN, Nov. 17.—It is now believed that the fatal explosion on the steamer *Revere*, was due to the bursting of a boiler.

## AMERICAN.

A JUDGE IMPEACHED.

ST. PAUL, Nov. 17.—By a vote of 71 to 13 the Legislature adopted articles of impeachment against Judge John C. Johnson, of Minnesota.

The articles contain charges of drunkenness upon the bench, and of frequenting a house of bad repute.

THE CASES OF THE DAY.

NEW YORK, Nov. 17.—The Rev. Dr. Henry Philip Taylor, died in New York, Sunday, Tuesday, in his 74th year. He was formerly President of the University of Michigan, and was author of several philosophical works.

A passenger fell off a street car here last night and was nearly disabled by the wheel and wheel.

WASHINGTON, Nov. 17.—It is reported that the Central Pacific, Southern Pacific and Great Northern, Harrisburg and San Antonio, and St. Louis, Iron Mountain, and Northern, and the Chicago and North Western, have agreed to operate a joint line with rates and conditions of service.

The *Times* says: Within a few days there have been several attempts to have the President remove the post masters, on the ground that they were not fit for the position. The President held the matter in each case, in decided terms, that the officers would be changed for proper cause, but not for such reasons as are suggested. His personal relations to Grant was one thing, his duty to the country another; but he would be kept constantly in view of the service and of a party as the whole.

LIVERPOOL, Nov. 17.—It is stated that Postmaster Statham has been dismissed from office. It is said the trouble was on account of a woman.

WASHINGTON, Nov. 17.—Blaine and Dr. Williams were in Court yesterday a few minutes, in response to subpoenas in the *Griffin* trial. Dr. Williams was called to the stand by the Government.NEW YORK, Nov. 17.—Arrived, the *Holstein* from Liverpool.

A MURDER TRAMP.

ROCKFORD, Nov. 17.—Albert Green, a colored tramp, dangerously shot Mrs. Forrest, a poor woman, because she refused to give him food. Green was pursued by the neighbors and arrested.

A BENTON CASE.

ROCKFORD, Nov. 17.—Director Sedgwick of Western Observatory, at eleven o'clock on the 16th inst. discovered a faint comet in the constellation Cassiopeia, having a right ascension of about an hour and fifty minutes, declination with 11 degrees; moving at a rate of about 1 degree in 10 days.

It is a slight central condensation, but it is visible. It is nearly round. Sedgwick estimates the diameter about four minutes. It is possible that the comet is the comet of 1812, which was expected to appear in the north. The comet is in line between Polaris and the great cluster in Perseus, a little nearer Polaris. This is the seventh comet discovered since January.

Swift telegraphed the discovery to Europe and will probably get the \$2,000 Warner prize, the second he received this year and the fifth awarded.

A LIVERED EIGHT MURDER.

WILKESBARRE, Pa., Nov. 17.—In a libel suit of W. W. Stanton, late manager of the *Lancaster* and *Iron* Co., against Aaron B. Hart, editor of the *Scranton Times*, the jury awarded plaintiff \$3,000.

## AFTERNOON DISPATCHES.

ST. PAUL, Nov. 17.—A mob showed the bodies of a party of Hunsars killed at Arbans. The police dispersed the crowd, but the hanging was stopped.

LAWYERS CONSIDER ANNOYING.

AT BALTIMORE, Conn. Mayor, the Commissioners of the Land Court have made sweeping reductions in rates, averaging 50 per cent.

OUTRAGE ON CATTLE.

LONDON, Nov. 17.—A mob has been out of from over one hundred cattle belonging to a farmer named Plarage, near Roscommon. The cause of the outrage is unknown.

THE OUTRAGE AT BALTIMORE.

WASHINGTON, Nov. 17.—Informed that there was no disagreement between him and Robinson. Galt said he would have his own case; he would trust Robinson, as he had no crime. He said two or three hundred lawyers would lose the case for him, and he did not propose to submit to anything of the kind.

SHELVILLE, MONDAY, NOV. 28.  
The Agricultural and Arts Association.

The action that was taken by the Council of the Agricultural and Arts Association at their recent meeting in Toronto—report of which appears in other columns—will be regarded with much satisfaction by the public in general. The stirring of the thirteen officers, members, although a temporary one, on the score of economy, will deprive the Council of the services of some of its ablest members; better would it have been, perhaps, to have reduced the number of both classes of members equally, but as the gentleman in question willingly deplored himself, the action which they have recommended the Legislature to take will doubtless be taken by that body, and make clear the path of the Council as a body of men, and if fully carried out, will afford an excellent reason for the continued existence of the Association, by largely increasing its usefulness.

The report of the special Committee with reference to the position of the Board towards the Corporation of the city of Toronto, throws an entirely new light on that subject, and makes clear the path of the Board as a body of men, and if fully carried out, will afford an excellent reason for the continued existence of the Association, by largely increasing its usefulness.

were actually in the midst of them when the *Globe* calls 'conspirators'; how is it that they have omitted to divulge the details of the plot? The account of the proceedings of the late assembly we find nothing but a few harmless resolutions endorsing the Government policy. Surely the *Globe* doesn't ask us to believe that these consisted of the 'Tory conspiracy'?

There has been a bill in the matrimonial line lately, but the bill, has been taken by two of our young folk in the hands of the wretched on the 23rd inst. The happy couple are Mr. Charles Elliott, son of J. Elliott, Esq., and Miss Elizabeth Shaw. They were married by the Rev. J. G. Green, A. Elliott, Esq., the bride at this point is completely from the scene, and the boys are enjoying themselves on the eve.

Mrs. Joseph Elliott is reported to be dangerously ill.

Mr. Kestelbock, who started his saw mill some four days since, has been obliged to shut down on account of the frost.

A fight took place in our village last Saturday night. It seems a man from Belleville went into the street about half past seven and commenced kicking some one who was making a noise. The proprietor told him to get out, but the man did not go, and the fight continued until the police arrived. The man was taken to the hospital, but he is now on his feet.

The Church of England congregation are going to have an entertainment on the 29th of November, at the Town Hall, in aid of a Xmas Tree, Social and musical entertainment. The proceeds are for the benefit of the Church. All are invited.

**Correspondence.**

Whilst correspondence will be continued again for the purpose of their issue on topics of public interest, the views expressed are simply those of the correspondent.

To the Editor of the *Intelligencer*:  
Dear Sir,—Our friend, Hon. Bill Pitt is celebrated for his 'yarns', but 'facts' are more essential (in my estimation) to newspaper journalism than 'yarns'. Mr. Pitt's yarns to me. I have him 'yarn' on oldry (said to be unusual with him). I know that he paid \$10,000 to \$12,000 for a very large quantity, which was sent to Toronto at \$15 and in Ontario at \$10 and the price has continued away to \$10 and \$100 within a short time, when, mostly for the reason of the great loss of the yarn, but now that navigation is about closing, freight and insurance about doubled, and the probability that the small quantity offered will have to be kept over until spring, 75c is a fair price for it—quite as much as anyone having the money would care to invest in it, and which I am in a position to sell, with which I sympathize. Referring to wheat, I had an outside order for wheat. Best quality started at \$1.20 and quickly ran up to \$1.25 to \$1.40, which I was obliged to sell, as my correspondent said he could buy cheaper.

Mr. Pitt's ride through the country, and seeing grain in the fields is no criterion for the value of wheat to market in the winter at that time. It is apt to get mixed in the barn with other grain.

Mr. Pitt's desire for information as to when 'Grain' should be sold, is a question of time, and I reply from the middle of October to the present time, and that this 'grain' has not that facility for getting in so much of a degree as the buyers to it, I am almost impossible for the principle to spend his time that way, as he is required in his office to pay, and, but a preferable plan would be for the principle to do the buying and then to let the buyer to do the selling.

Mr. Pitt makes a most absurd error in his assertion that the system pursued by the Belleville Grain Buyers has driven farmers to Trenton and Channahville.

Trenton and Channahville are as natural points for produce as Belleville, and Mr. Pitt's own knowledge is the facilities offered for the handling, and the saving in time to the farmer in driving their produce to the place, and the buyer can afford to pay as much, or more, as the expense are much less in rent, store, and other expenses, to say nothing of the fact that the 'Grain Buyer' is the farmer does not care if his name is Tom Todd, so long as he gets the price, and he pretty well knows what he gets when he has his produce to sell, but to satisfy our honorable friend, will be a pleasure to know him as Mr. Handcock.

Apologizing for the length of this epistle, and promising to trouble you further on this subject, I am,

Yours &c,  
O. GRANT BUTLER.

**Correspondence.**

Whilst correspondence will be continued again for the purpose of their issue on topics of public interest, the views expressed are simply those of the correspondent.

To the Editor of the *Intelligencer*:  
Dear Sir,—Our friend, Hon. Bill Pitt is celebrated for his 'yarns', but 'facts' are more essential (in my estimation) to newspaper journalism than 'yarns'. Mr. Pitt's yarns to me. I have him 'yarn' on oldry (said to be unusual with him). I know that he paid \$10,000 to \$12,000 for a very large quantity, which was sent to Toronto at \$15 and in Ontario at \$10 and the price has continued away to \$10 and \$100 within a short time, when, mostly for the reason of the great loss of the yarn, but now that navigation is about closing, freight and insurance about doubled, and the probability that the small quantity offered will have to be kept over until spring, 75c is a fair price for it—quite as much as anyone having the money would care to invest in it, and which I am in a position to sell, with which I sympathize. Referring to wheat, I had an outside order for wheat. Best quality started at \$1.20 and quickly ran up to \$1.25 to \$1.40, which I was obliged to sell, as my correspondent said he could buy cheaper.

Mr. Pitt's ride through the country, and seeing grain in the fields is no criterion for the value of wheat to market in the winter at that time. It is apt to get mixed in the barn with other grain.

Mr. Pitt's desire for information as to when 'Grain' should be sold, is a question of time, and I reply from the middle of October to the present time, and that this 'grain' has not that facility for getting in so much of a degree as the buyers to it, I am almost impossible for the principle to spend his time that way, as he is required in his office to pay, and, but a preferable plan would be for the principle to do the buying and then to let the buyer to do the selling.

Mr. Pitt makes a most absurd error in his assertion that the system pursued by the Belleville Grain Buyers has driven farmers to Trenton and Channahville.

Trenton and Channahville are as natural points for produce as Belleville, and Mr. Pitt's own knowledge is the facilities offered for the handling, and the saving in time to the farmer in driving their produce to the place, and the buyer can afford to pay as much, or more, as the expense are much less in rent, store, and other expenses, to say nothing of the fact that the 'Grain Buyer' is the farmer does not care if his name is Tom Todd, so long as he gets the price, and he pretty well knows what he gets when he has his produce to sell, but to satisfy our honorable friend, will be a pleasure to know him as Mr. Handcock.

Apologizing for the length of this epistle, and promising to trouble you further on this subject, I am,

Yours &c,  
O. GRANT BUTLER.

BELLEVILLE, TUESDAY, NOV. 29.  
A False Accusation.

The local organ of the first party seeks to break the force of our assertions on the course of the Globe in making reports, and to make them into the Conservative Convention at Toronto, by alleging a similar practice on the part of the Intelligence. It says:

Of course, as every man who has seen the Globe knows, it is not a party organ, and its reports are not made for the purpose of making a party. It is a public organ, and its reports are made for the purpose of making a public. It is not a party organ, and its reports are not made for the purpose of making a party. It is a public organ, and its reports are made for the purpose of making a public.

The writer of the above is either ignorant of the facts of the matter to which he refers, or he is wilfully false. He has been misled by Mr. T. S. Curran, the proprietor of the Globe, who might have spared himself the humiliation of being detected in an error, or a more deliberate untruth.

The fact is that Mr. Curran, the proprietor of the Globe, who might have spared himself the humiliation of being detected in an error, or a more deliberate untruth.
